Funded by 2013 SUNY Innovative Instructional Technology Grant

How can you assess cross-cultural experiential learning activities at your institution? Consider using the International Cross-Cultural Experiential Learning Evaluation Toolkit.

The toolkit provides a guide to designing flexible program and course assessments for a wide variety of international experiential learning opportunities, programs and broad academic curricula. Here is how the toolkit can serve your institution:

- ✓ It enables faculty to tie expected learning outcomes to cross-cultural skill development
- ✓ It shows faculty how to collect data to demonstrate the effectiveness of course assignments
- ✓ It provides a framework for more effective program design
- ✓ It ensures the replicability of successful programs

This Toolkit development project was funded by a 2013 Tier III SUNY Innovative Instructional Technology Grant. The project team currently includes Professor Bidhan Chandra (SUNY Empire State College), Dr. Susan Jagendorf- Sobierajski (SUNY Cobleskill), Professor Runi Mukherjee (SUNY Old Westbury), Rebecca Smolar (National Association of Consumer Advocates), and Dr. Patrice Torcivia (Cornell University).

We hope for greater utilization of this valuable resource for planning and evaluation of cross-cultural/ international experiential learning by your students. Our project team members can provide training for effective toolkit use. We are also looking forward to your feedback about any aspect of the toolkit. This can be done online in the "Feedback" box.
